

**Winds of Silence**

Season of cold

Fragments of the past no longer take hold

Enshroud what has been

To never return

Winds of Silence

Asunder

Winds of silence

Ascension

Breath of void

Winds of silence

Under eyes of decent

Days come to an end

Behold the night born

Arise from the dark

Breathe in cold life

Awaken once more

To reign night

Under eyes of decent

Days come to an end

Behold the night born

Enshroud what has been

To never return

Winds of Silence

Asunder

Winds of silence

Ascension

Breath of void

Winds of silence

### **Blackened Waves**

Rise from the depths below the lights  
Sound unfolds beyond sight  
Ashen grip clutching the side  
Forever I'll be no more

Sin covered skin, decay within  
Cold embrace  
I claim your throne

Blackened signs pierce the night  
Wandering coils spread across the sky

Fleeting light returns once more  
Judging purpose of the lose  
Guarding the gate, suffering  
Return to the shore  
Shadowed depths fade away

Rising tides, beyond sight  
The world returns  
Forever I'll be no more

## **Benighted Weald**

Through the bleak night  
To the dark grove  
Whispers on the wind  
Guiding us home

(silence voices all around)

Beyond a passage  
Tainted oak and stone  
Time has faded from this realm, enthroned

Twisting through the dark  
Faltering corrupted earth  
Death ferments the air  
Reticent, carry

Buried from of light  
Emptiness from the void  
Burning in his eyes  
Cursed from within, this world  
Charring light within, burning in agony

Floating weightless, exhausted  
Darkness, soulless, overtaken

My soul henceforth forlorn, desolate  
Wandering into the night  
Benighted by the weald

### **Aethereal Forger**

Beyond the winds of fire  
Fate awaits your soul  
Tortured skies brings forth the flames  
Chaos eternal shall rise

Aethereal Forger, Aethereal

Time has come to strike, march to war  
Have them fall and the empyrean rise  
We shall come forth clutching the sword  
Made from the aethereal forge

Turn all to ash  
The flames rise

Infernal sky summons the light  
Incalescent incantation cleansing eventide  
Empyrean rise, turn all to ash  
The flames bright

Chaos shall rise

Aethereal Forger, Aethereal
