

SYRYN – HEAD OR TAILS ALBUM LYRICS

SURRENDER

Scarlett blood lines the hallway
Weaving through corpses and bones
Massacred mortals in limbo
We need to set them free

Living in purgatory
Fighting the lines on the sea
Generations failed before us
We will not lose control....no!

Incantations of temptation
Malevolence is her song
Extermination's her end game
No chance of carrying on

Indifferent to humanity
Possesses no mortality

We will not surrender
We will not surrender
We will not surrender
We will not surrender

(Melodic Vocals)

We will not surrender
We will not surrender
We will not surrender
We will not surrender

Tortured strides moving forward
Wasted and withered from fear
Dreams turned into disaster
Wishes ripped at the seams

Mindless choices decided
Life overrun by greed
Wage war on the enemy
We will see victory

We will not surrender
We will not surrender
We will not surrender

We will not surrender
We will not surrender
We will not surrender

We will not surrender

FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT
FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT
FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT FIGHT

Hold your head High
HOLD YOUR HEAD HIGH!

'TIL WE DROWN

Crews up at dawn, we're departing
Rise up the anchor and rig the line
Loading the pistols and cannons
With a speech from your Captain
Ignited you set Sail...

...ing the seas that are seven
Pillage and plundering is your game
With the wave of a red flag in warning
You threaten no quarter
No mercy for the kill

The battle is won
In Poseidon's kingdom
Now time for fun

Come have a drink with me where would you rather be

We'll drink it down - 'til we drown - We'll drink it down
We'll drink it down - 'til we drown - We'll drink it down

DRINK
FIGHT

Traveling home from a journey
With no drink in your hand, you know that's a sin
Returning in all of your glory
Raise a glass to your men and then celebrate your
Win...

..ning is always encouraged
When a battle befalls you, you stand your ground
Now you sit sloshed dreaming of days
Filled with waters of wine, seas of whiskey, gin and beer

It's time to go home
With treasure in tow
The battle is won

Come have a drink with you rather be

We'll drink it down - 'til we drown - We'll drink it down
We'll drink it down - 'til we drown - We'll drink it down
We'll drink it down - 'til we drown - We'll drink it down
We'll drink it down - 'til we drown - We'll drink it down

WALK THE PLANK

Now...
Beg for your life
Pay for your sins
Ask for forgiveness

For all of your lies
The end begins
There is no compromise

LIES

Enter at your risk
Cease and then desist
The docket for today is your destruction

Remain in your restraints
Your shackles and your chains
Rise and meet your justifier

Now...
Beg for your life

Pay for your sins
Ask for forgiveness

For all of your lies
The end begins
There is no compromise

Beg for your life
WALK... THE... PLANK
Beg for your life
WALK... THE... PLANK
Beg for your life
Beg for your life

Shivers down your spine
The end of a bloodline
Weighted by regrets of your entire lifetime

Salt enters your veins
Flesh it eats away
In the sea of assassination

Now...
Beg for your life
Pay for your sins
Ask for forgiveness

For all of your lies
The end begins
There is no compromise

Beg for your life
WALK... THE... PLANK
Beg for your life
WALK... THE... PLANK
Beg for your life
Beg for your life

Now...
Beg for your life
Pay for your sins
Ask for forgiveness

For all of your lies
The end begins
There is no compromise

Beg for your life
WALK... THE... PLANK
Beg for your life
WALK... THE... PLANK
Beg for your life
Beg for your life

SINK OR SWIM

Lingering sadness
And debauchery
Sitting
Succumbing to reality

Endlessly analyzing
What's to come
Uncertainty growing
Unknowing beyond

Emotion is painted
On all of our faces
We are within
Hysterical stages

The light at
The end of the tunnel is gone
Wondering how we will carry on

Oooohhh....
Sink or swim will you sink or swim
Sink or swim will you sink or swim
Sink or swim will you sink or swim
Sink or swim will you sink or swim

Questions unanswered
We're going in blind
Anxiety building
No chance to unwind

Internally rifle
For humanity
Refusing to let
Panic take over me

A notion has tainted
All familiar places
Madness ensues
On a daily basis

Tireless
Wondering is taking its toll
No end in sight
No achievable goal

Ohhhhh.....

There is no backtrack
And no fast forward
When terror meets reality

Fact against fiction
Drowned in trepidation
We are our own worst enemy

Oooohhh....
Sink or swim will you sink or swim
Sink or swim will you sink or swim
Sink or swim will you sink or swim
Sink or swim will you sink or swim

Trust in the power
That you have within
Don't ever cower
We're all bound by sin

And while we by no means
Admit to defeat
This isn't the last
Of the battles we'll meet

MADNESS BECOMES ME

Faint sound off in the distance
Cantillation through the breeze
Calling with exquisite melody
Enthralling me

Sanity in question
Is it fact or just perceived
Reality's a distant memory
A memory

And it twists and it turns and it burns
Inside my mind... I'll survive
I don't care if I'm blind
Mark my words
I'll see through your disguise

Slowly
Uncontrollably
The madness becomes me

Leading me into darkness
Destination unforeseen
I'll follow you into a reverie
Aimlessly

Hunting for explanation
The moonlight she will lead
A journey to evade insanity
Insanity

And it twists and it turns and it burns
Inside my mind... I'll survive
I don't care if I'm blind
Mark my words
I'll see through your disguise

Slowly
Uncontrollably
The madness becomes me

Falling into darkness
Unsure where it leads
Uttering a tortured
Plea

Terrified disorder
Emotional deceit
Fighting but am paralyzed and weak

Please
Let go of me...

Let go of me...

Let go of me...

Ohhhhhh ohhhhh ohhhhh ohhhhh

FIST FULL OF DAGGERS (Featuring Craig Carswell)

Hatred grows stronger
The longer you're down on your knees
Get kicked when you're done
No matter how you try to appease

Tactical triggers enable
The darkness to breed
With blood on your face
Will you claw your way out of the weeds

Disguised in your human skin
Dropping fires everywhere that you go

Cryptic critics...
All these snakes disguised as friends

Makes it hard to see what's real underneath
When all you thought that mattered
Was a fist full of daggers

Forced into submission
Provoked by a collective greed
Paralytical thoughts in your head
Make it harder to breathe

Tipping the scales
Doesn't always mean that you'll succeed
Inflict and depict
Deviate from your normality

Well you can try to drag me under
But you will not drag is down

Cryptic critics...
All these snakes disguised as friends
Makes it hard to see what's real underneath
When all you thought that mattered
Was a fist full of daggers
Fist full of daggers
Fist full of daggers
Fist full of daggers

Put your blade in and twist I can handle it
It's been there all along
You can stop with the victim games
Stop with the sob stories
Everyone knows that you're wrong

Blades always vicious
Ambitious toward
Their own need

Adorned in their blood-spattered triumph
to mortality

Disguised in your human skin
Dropping fires everywhere that you go

Cryptic critics...
All these snakes disguised as friends
Makes it hard to see what's real underneath you
When all you thought that mattered
Was a fist full of daggers

Fist full of daggers / Cryptic Critics all there
Fist full of daggers / Snakes disguised as friends
Fist full of daggers / Makes it hard to see what's real underneath

Fist full of Daggers / When all you thought that mattered

First full of daggers/ Was a fist full of daggers

HEADS OR TAILS

Heads you go forward
Tails you go back
Chance is upon you
Flip a coin to lead you on your path

Heads you go forward
Tails you go back
Chance is upon you
Flip a coin to lead you on your path

Oh the hands of time
How they intertwine
Each day as confusing as the next

Haunting memories
Bring you back to life
Reminding you of all that you have seen

How can I see where the light is
Which way must I go
Each direction tells a different story

Feelings of truth live inside me
Intuition calls
But fear reveals a cruel reality

Ooooohhh
Which way do I go
Ooooohhh
Which way do I go

The beautiful unknown
Reveal yourself to me
I can feel you pounding in my chest

Stumble I might fall
Trying to do it all
But I must rise up and begin again

Pleading and asking for answers
Just give me a sign
Which one is the path that serves my purpose

I stand on the line undecided
Apprehensively
Cause things aren't quite always as they may seem

Heads you go forward
Tails you go back
Chance is upon you
Flip a coin to lead you on your path

Oooooohhh
Which way do I go
Oooooohhh
Which way do I go
Oooooohhh
Which way do I go
Oooooohhh
Which way do I go

Heads you go forward
Tails you go back
Chance is upon you
Flip a coin to lead you on your path

Heads you go forward
Tails you go back
Chance is upon you
Flip a coin to lead you on your path

SUCCUBUS QUEEN (Featuring Amanda Kiernan)

HA HA HA HA...
You're going to hell
And I'm going to take you there

Mystified
Encapsulated
Locked and trapped
Abominated

Petrified
Incarcerated
It's for death
That you are slated

Your time on earth has ended
Not a human soul in sight
Down a perished highway
Until you're out of light

Through an upright tunnel
Pitch darkness and abyss
Unknowingly going
To a place you don't exist

Drain your soul
In the depths of infatuation
No control
You must face it now
For you're hell ridden

Holder of the razor throne
Wings constructed of horns
Irrefutable beauty
Entwined in a perfect storm

Ruler of the Raven Stone
Sleeps on a bed of bones
Undeniable cruelty
Shown to every soul that's born

You watch me in fear
Paralyzed and empty
Falling further down
This never ending hole
Now you worship thee
Cower in my beauty
This is where you dwell
Forever...

CHORUS:
Holder of the razor throne
Wings constructed of horns
Irrefutable beauty
Entwined in a perfect storm

Ruler of the Raven Stone
Sleeps on a bed of bones
Undeniable cruelty
Shown to every soul that's born

Temptress of the night
Your will begins to turn inside
Give into me now because there's
Nowhere you can hide

Her sharp serpentine tail
Will get you with its poisoned tip
Excruciating pain awaits
For which you're not equipped

Hollow souls come out
As your blood fills up my veins

I can feel the energy
It's filling me with hate

Hell awaits within you
There will be no end in sight
A thirst that never satisfies
Eating you alive

Come in vain
Please accept our invitation
Under reign
It's a celebration
You're our sacrifice

Mystified
Encapsulated
Locked and trapped
Abominated
