

# “Our Dear Finale” – Lyrics

## 1. "FIRST DAY ON EARTH"

[Verse 1]

I've grown addicted to that feeling

When our bodies give us meaning

Trapped in a haze of blinding twilight (caught in traps and vicious lies)

Casting no shadows in the sunlight, you know it

Felt the rhythm of salvation (felt it and wasted no time)

Swallowed and lost all isolation when I found you

[Chorus]

Struck and defeated by the strange, gruesome loneliness

Before our souls had intertwined, we searched for holiness

It's like my first day on earth, I'm in pure disbelief

I feel the darkness moving closer, so come with me

[Verse 2]

Don't be vindictive towards your history

Keep moving forward and on listening

There's times I wished for death and there's places I despise

And while they cut so deep, I know they define me for all life

No doubt I found the calling we need

Followed and lost all isolation when I found you

[Bridge]

When everything goes right, it feels like dreaming

I'm praying things are really what they seem

Will we be fine?

[Final Part]

There's times I wished for death and there's places I despise  
And while they cut so deep, they won't define my whole life

## 2. "LIONESS"

[VERSE 1]

You keep denying the anguish and the abuse  
This is a battle you are, sadly, doomed to lose.  
I saw your torment in your mental descent.

[CHORUS]

Running high, keeping low  
won't save the blatant lies that you sow  
No safety  
because I know you're on your own, you're all alone

Another night to resist  
You're fighting strong as a lioness inside  
and yet I know you're on your own, but you don't have to be alone.

[VERSE 2]

No stepping back  
I'll break down your cage and relieve you from the misery.  
Like a cassette, I've rewound your lies and read between the lines.

I can't let this happen,  
much less is anything justified  
He'll join a bloodshed in the role of the bleeding sufferer.

[BREAKDOWN & ENDING]

I'll take control of your faith my dear, you're not alone

### 3. "SANGUINE"

[VERSE 1]

I'll be sending you to hell

Another day, another beating she's taken

Forsaken in a trap of anomalies

Pushed and punished

By the man that's supposed to patronize her heart

to guard her holy sanity

There's no rest for the wicked

I don't have any other choice

Come close, calamity

[PRE-CHORUS]

The only way to end the pain

(It's the best for the both of us)

Is to do the inhumane

(I'll make it quick and painless)

[CHORUS]

Breathe one more time before you're sedated

Don't make it all more complicated

The blood on my hands is worth the prize

I'll be serving you the dish of revenge, you'll enjoy the tasting

Oh, you don't know how long I've been waiting

The blood on my hands is worth the prize, my sanguine valentine

[VERSE 2]

Bruised and battered

By the man that who created her

You took her dignity to shape your fantasies

There's no rest for the woeful

You didn't leave my any choice

Come close, insanity

All your demons will haunt you

They'll retaliate all the things that you thought to deny and palliate

[BREAKDOWN]

The only way to end the pain

Is the best for the both of us.

I'll be sending you to hell, and make it quick and painless.

'Cause ll your demons will haunt you, they'll retaliate.

No matter where you run to, it's already too late.

[BRIDGE]

Dear love, you're free

I blessed you with the greatest gift of death,

'cause now no one can disunite the bond we have.

Save all your tears for someone worth it

'Cause I believe that he deserved it

## 5. "MUTE"

[INTRO]

Don't fool the saints that protect your sanity

(it all dawns upon me)

I know the rules but how am I supposed to act  
when the ending of the play destines me for death?

[VERSE 1]

Saying goodbye, saying goodbye forever  
to all the times where I've shed the agony  
I wonder how it all happened,  
I guess the devil acts quick and won't wait for anyone.

[PRE CHORUS]

Naivety gets victimized  
Like a silver tongue that lies  
The decency fades 'til it dies

[CHORUS]

I keep on searching for the courage to let it go  
Now I'm fighting an inner war to keep the pain locked and well-ignored  
You keep on seeking all the blueprints to read my core  
An obligation to hold my peace  
I'm staying mute in the make-believe

[VERSE 2]

Staying divine, staying divine forever -  
impossible when you value honesty  
A pressure too hard to handle  
Afraid of losing all I love, what have I become?

[BRIDGE]

The truth will complement the shame

(The truth will complement the shame)  
No kind of poise will keep me sane

[BREAKDOWN]

No, don't fool the saints of your sanity  
It all dawns upon me  
Will I take the shame and face reality?

## 6. "BRAND NEW START"

[VERSE 1]

I could feel him closing in  
for the kill with confidence  
(it seemed obvious)  
Every single time I saw his grin

You were frozen, paralyzed  
So I took him by surprise  
(obliterated him)  
To keep you safe and sound, I deemed it wise

Can't find the courage to speak  
about my intervention  
But you need to know to move on  
I'm afraid that we'll fall apart

[CHORUS]

So my heart has called for closure  
And found my designated part  
Will you focus on the agony or embrace your brand new start?

It was hard to haul and take back your emotions  
You're smiling so ambiguously  
Everything's entangling me  
I'm afraid that we'll fall apart

[VERSE 2]

I could feel it closing in  
It pressed me to commit a sin  
(I did it all for you)  
He'll never add more bruises to your skin  
I was frozen, paralyzed  
But I know my deed was right  
(exterminated him)  
I'll keep you safe and sound  
But I'm afraid  
Can't stop thinking about the echoes to my actions  
Thinking about the way you'll react  
And how you'll despise and wreck me  
Or will you smile, embrace and thank me?

[BRIDGE]

Boy, lift your head, you're not condemned  
you're still a saint, shed your regrets  
She'll understand, so take her hand  
And own your act just like a man  
Everything will be alright  
I see her closing in  
Thanking you for saving her life  
You're chivalrous like a knight  
I see her closing in  
Take her hand tonight

## 7. "OUR DEAR FINALE"

[VERSE 1]

The time has come to tell you something

I can't hold in anymore

The other night I went hunting for someone you should not adore.

You've been forsaken, alienated by an assailant

I've been contemplating murder and got impatient

And then darkness had risen above me

Gifted him all of death's infinity

[CHORUS]

Tried to tell you why I did it

Fallen on deaf ears

I've nearly gone insane and it keeps haunting me

Tried to tell you why I did it

Calling for our dear finale

I'm afraid you will keep haunting me

[VERSE 2]

I want you to feel whole again

Devoid of any discontent

But now you tell me I should carry myself and my shame away?

Well, would you let me stay a second and give me a chance to explain?

What's your intention with that knife?

I used it to save your soul, don't you dare take my life.

[VERSE 3]

You really dared to swing and cut my skin.

Unleashing all the rage within  
My fist will teach you not to sin.  
I may have gone too far..  
darling, please don't die in my arms  
I hold you, you hold me, but...

[ENDING]

You held me to stab it through my lungs  
Now I keep staring and staring at you  
You loathed me all along  
And now nothing will ever be the same

You know, I swear I did it all for you  
Was I a conscious fool?  
Oh new woe, a neverending tale of bruises where I keep losing  
Well, you know, I swear I did it all for you  
Such a deadly ruse, oh

You know, this is the end for me and you  
And heaven won't care for the truth
