

MALICIOUS MOTORCIDE

Deranged with strife
Busy, fall night
I grip the wheel
My rage is boiling now!

Set in my ways,
Cannot be tamed
Accelerate towards
My target crowd!

My foot slammed on the gas.
There is no turning back!
Shifting - engine revving high
There is, no way to escape
Violent, stampede enstate.
I am, speeding recklessly
The last thing you will see!

A red mist erupts
People turn to mush!
I will, not slow down
Human wrecking plow!

Fear in their eyes,
The time for death is nigh!
Many try to flee,
Unsuccessfully!

Carnage insane, pleasure profane
Losing my mind in orgasmic ways
Victory sheer, message is clear
Triumph in hatred is ever so near!

Look up and realize now,
My work has just begun.
Police descend on the scene,
Something must be done.

pop the clutch
my tires just spin ON THE GUTS
unhinged my psycho bloodlust

One last, dreaded fear
As my death draws near.
Shrapnel, starts to fly
Malicious Motorcide!

I remove my vest
Explosives on my chest!
The clock, ticks from ten
Ultra violent end!

THE BUTCHER

Suspended in this cage
Searing with hate
Little I know of this place
Fearful - await my fate

Steel walls trap me inside
Strapped in for this ride
I hear them saying my name
Soon to be vanquished by flame

Begin to lower the heat is intense
Human charbroil commence

In to this pit
Skin set ablaze

Blistered remains
Left without a trace

Skin starts to smoke anguish is accumulating
Grabbing for the cage as the pains accelerating

Driven insane
Slow death decay
Flesh sears away

Skin starts to smoke anguish is accumulating
Grabbing for the cage as the pains accelerating

Purged, of life you became
Flesh, engulfed by the flame
No choice but to comply
As your body liquefies

Torched alive, I'm confined, grilled by the
Blazing hellfire that's below me
Ripping and tearing the Butcher is strengthening the overlord

Purged, of life you became
Flesh, engulfed by the flame
No choice but to comply
As your body liquefies

Legion of Doom

Frosted the scene
Dark crusader of light
BACK from the dead to exhort hells might
Legions of doom. death and decay
Reanimating,
His fallen prey

Terror awaits those who stand
Riding on the wings of death

Blackest son, abhorrer of light
Warlord of, eldest might
Forsaken soldier, depths of hell
Oceans of pain, start to swell
Death knight, death strike

Harbinger of doom
Red thirst consumes
Undeath comes soon
Empty the tombs

Hulking behemoth, enslaved by the Lich
Beastly power caves in heads
Bodies swung with demonic force
Eternal damnation begins

Terror awaits those who stand
Death is certain by his hands

Harbinger of doom
Red thirst consumes
Undeath comes soon
Empty the tombs

Familial Feast

Human dinner made for 3
Twisted cuisine, for the family
Fathers remains high in protein
Boil the head, chew through the eyes

Sharpen the blade
Spiteful crusade
Puncture the rib
Split through the cage

Brutal torture
Grim departure
Throes of pain
Driven insane
Sawing the meat
Delicacy
Seasoning
Spousal ground beef

Brutal torture
Grim departure
Throes of pain
Driven insane
Sawing the meat
Delicacy
Seasoning
Spousal ground beef

Hang the body on the hook
Sever the arms, remove the head
Let the thigh meat marinate
Crippled body desecrate

Stalking through the halls
Killing until I fall
Slaughter a mass of students
This will be my reckoning

Taking lives with every breath

Staring into my gun

Trapped in a cage
They can't escape
Victims of rage

The bullets made damn sure of that
Make sure there's nobody left

Executing kids as they plead

Life unworthy of life
Darkest desires brought to light
Vengeful plot to kill them all
