**Altered States EP Lyrics**

**1. Tides**

I can show you what living life's like  
You're missing time  
No alibi  
Make yourself small to hide the light  
You were never mine  
All tides

Earth will shake , the deep will rise  
Fire illuminates the sky  
Night defeats them - hear their cries  
Mind reverses through time

Surrender your mind to what you can't deny  
You're wasting time  
Burning eyes pried open wide  
You fear the signs as your worlds collide

Earth will shake , the deep will rise  
Fire illuminates the sky  
Night defeats them hear their cries  
Mind reverses through time

As you come out the other side  
No fault of mine  
You were left behind  
Find yourself in unmoving lines  
For something else you'll never find

Earth will shake, the deep will rise  
Fire illuminates the sky  
Night defeats them hear their cries  
Mind reverses through time

## 2. The War / Nothing More

War came to you before midnight  
A fight you didn't know that you were in  
Familiar face you once trusted  
Stole everything that could have been

Took your sight and ripped your heart out  
Left you in the dark to pace alone  
What you thought was your future  
Fades away and now might be gone

Scarred, beaten and bruised  
Nobody's broken as you  
Nothing seems like the truth  
Secrets only consume  
Scarred, beaten and bruised  
Nobody's broken as you  
Nothing seems like the truth  
Secrets only consume

Morning sun on the horizon  
You're still here and I have never gone  
Things you thought you knew and trusted  
Beg forgive and now to hold on

No way to see uncertain future  
Hard to feel safe in someone's arms  
Hold on to me I won't let you go  
Even as you hurry from the harm

Scarred, beaten and bruise  
Nobody's broken as you  
Nothing seems like the truth  
Secrets only consume  
Scarred, beaten and bruised  
Nobody's broken as you  
Nothing seems like the truth  
Secrets only consume

All this time, never forgot you  
Fall in line about to meet your truth  
Its not up to you to give a reason  
Take back the pieces given  
Shed your skin to make it  
Whole again you can't fake it  
Turn around and face it  
Turn around

### 3. From Her Hands

Stones slipping from her hands  
Down to the ground  
Just like yesterday  
Tides of hope for tomorrow  
Coming down  
To wash you away

It's all made up you'll see  
Breaking into me  
All your hopes and dreams  
Failed to see her memories  
Spoke what you crave  
Replaced with the pain  
Get right stand up straight  
No ones with you today

Brush strokes across your mind  
Stop wasting time  
Drowning in sorrow  
Undertow is coming now  
As you try to be  
Yourself tomorrow

It's all made up you'll see  
Breaking into me  
All your hopes and dreams  
Failed to see her memories  
Spoke what you crave  
Replaced with the pain  
Get right stand up straight  
No ones with you today  
So just disappear  
It's not enough to stay  
Search for something else  
That wasn't here yesterday  
Should have never gone  
Pieces come undone  
Lie dead, repeat  
Begging me to be set free

Stones slipping from her hands  
Down to the ground  
Just like yesterday  
Tides of hope for tomorrow  
Coming down

To wash you away  
Brush strokes across your mind  
Stop wasting time  
Drowning in sorrow  
Undertow is coming down  
As you try to be  
Yourself tomorrow

#### **4. Altered States**

Vibrant  
Through your lungs  
Moulded to  
Alive inside of me  
Out front  
It becomes you  
Altered States  
One thing left to prove  
Come back  
Change the frame  
Take what's left  
You're all that remains  
Honest  
I succumb to  
Your touch  
No mask left to choose

Altered states - Are we the same  
Take what is left of me - cause I'm the one you saved  
Failed to see  
Failed to see her memories

Altered states - Are we the same  
Take what is left of me - cause I'm the one you saved  
Failed to see  
Failed to see her memories

Gone are the memories
