Lyrics:

2. Triumph Of Enslavement

Ripping flesh, tearing bone
Bloodied earth, kingdom overthrown
Triumph of enslavement, a brutal reign
Crushing all resistance, inflicting pain

Tyrant's crown, stained with blood
The enslaved bow down, hearts hardened like mud
Triumph of enslavement, a brutal fate
Ruling with an iron fist, sealing their fate

When the skies turned a sinister shade of green,
we knew the time had come for the intergalactic oppressor to reveal its true form.

3. Consumed Into Nothing

Ripped apart, limbs in pieces
In a whirlwind of agony, a darkened heart
Engulfed in Oblivion, a destiny sealed in blood
No way out of the shadows, for eternity

Let the blood run, let the cries be heard

Engulfed in Oblivion, in a nightmare with certainty

A plunge into insanity, a plunge into suffering

Engulfed in Oblivion, never to regain sanity

4. Womb Of The Desecrated

In the darkness of my mind

Where pain and suffering align

I am trapped in the womb

Of the desecrated, consumed by doom

Womb of the desecrated

A place of torment and hate

I am bound to this cursed fate

In the womb of the desecrated

In this desolate expansion so dire

I am devoured by eternal fire

Confined in the desecrated bowels

My spirit eternally despoiled.

5. Acknowledge The Inevitable End

Screams of agony pierce the sky

As we face the void, the endless blight

No salvation, just eternal dread

Crushing despair, suffocating agony

Ripping apart the fabric of sanity

No light, no hope, just the endless dread
