# **Blood Bound**

Born beneath the shadows  
Raised by the shades  
The twins of the fallen  
Lost each other's hand

Year after year  
The fallen ones tortured  
By the hands of tyrants

They swore revenge  
And cursed their lords  
They swore, to find  
Each other again

One day they broke their chains  
And turn against the oppressors  
Crucified all the lords

Crucify all the lords!

Unholy bond of blood  
Between of the two  
United again  
Through blood and death

Pain and suffer  
Left behind  
Blood soaked path  
On which they walk

No mercy for the weak  
No mercy for the strong  
Slaughtered them all  
Raised the skulls to the sky

They're lost in insanity  
Because of the years of killing  
Envy araised  
And poisoned their minds

Struck down  
The sword of death  
The bond (of blood) is broken  
The bond (of blood) is broken  
The age of slaughter ends

# Black Waves

Abandoned land  
Under the red, blazed sky  
Bonfire lights the path  
Through the dark

The Illusion of hope is gone  
Creation comes undone  
Extinction just begun  
The circle of death is done

Black Waves of Death  
Sweeps away  
Melts the meat from the bone  
Takes away the soul

No man's land  
Endless ruins and fire  
Scorched earth  
And bloodsoaked mire

The Illusion of hope is gone  
Creation comes undone  
Extinction just begun  
The circle of death is done

This isn't real  
All this madness  
This isn't real  
All this cruelty

It's just an illusion  
Imagination  
Depraved mind  
Of mankind

Black Waves of death  
Take one last breath  
One final thought

Before death comes

Black waves of death

Torment in hell

Before the dawn

You must die

## **No Return (From Hell)**

Your addiction ruins your life  
Immoderate hunger for more and more  
Poison in your veins  
Consumes you like fire consumes souls in hell

You care about nothing  
You don't care who's suffering around you  
Destroy everything  
Which was once important

Hell awaits!

You don't listen  
But the day will come when you fall  
There's no return  
From hell and you will burn

Gruesome pain  
Awaits you until the end of time  
But you don't care  
You just need the poison to blow your mind

Hell awaits!

Intoxication overwhelms  
Your final ride has just begun  
Sink deeper and deeper  
To the point of no return

Recognition is late  
Abandoned reality  
You had left this world  
Forever...

Welcome my child

At the place of torment  
You have arrived  
In hell...

Regret is pointless  
You have wasted your life  
Now this place will be your home  
For the end of time

No return from hell!

Feel the wrath of the flames  
Feel the bone-chilling pain  
It bites your flesh  
It burns in your vein

No return from hell!

The suffering is endless  
No way to run away  
You shall pay  
For your sins

# **The Unbelief**

Fertile land  
Where the kingdom stands  
Ruled by a queen  
Who only had belief in her self  
None of the gods she feared

The lord, as they called  
Cursed her mind  
That blinded her eyes  
By the seeds of lies  
The queen began to go crazy  
(And) Completely lost her mind

She was raging by hatred  
And killed all what she loved

The age of chaos has begun  
Rampant devastation arised  
The punishment is complete  
She's damned once and for all

In the depths of  
Bleak wilderness  
Now where this kingdom stands  
The kingdom which is ruled by chaos and hatred

One day the queen of madness  
Gave life to a child  
But the hatred reigned over  
Blinding her eyes

She couldn't bear any more  
She couldn't bear the maddening thoughts  
Obeying to hatred  
And killing her own son

The circle is complete  
She will fall to the obscurity of oblivion  
No one remains, who remembers  
No one remains, to keep her legacy

# Diabolical Agitation

Her soul is so pure  
Like a tear in an angel's eye  
Raven dark hair  
Blood red lips  
So innocent so fragile

She doesn't know sorrow  
She doesn't know fear  
Her heart is so pure  
Like the essence...  
Like the essence of light

Come here my child  
Take your place on my side  
Be my queen  
Be the queen of eternal darkness

You don't have to fear  
You don't have to cry for your life  
Just close your eyes  
Let the darkness...  
Let the darkness inside

Let me paint you lips  
With my tainted blood

Give me your soul  
And I'll create...  
And I'll create the essence of darkness

Come here my child  
Take your place on my side  
Be my diabolical queen

Scorn..scorn...scorn... scorn...scorn  
Take my blood  
Drain my pain  
Let the carnage begin

Rule the world with shield and sword  
Take the head of saints  
Paint the sky red  
With the blood of the dead

Stop the hypocrisy  
Stop the deceitful god  
Let the reign of terror begin  
Let the realm of chaos begin

Now she knows sorrow  
Now she knows fear  
Her heart is so dark  
Like feather of a raven

Her skin is so pale  
Her blood is so depraved  
She is the queen  
The essence of darkness

Come here my child  
Take your place on the throne  
Be the empress  
Of raging terror and chaos

This is my will  
Hear my word  
Be my slave  
Be my destiny

# Obolus

Make money for whores  
Make money for drugs  
Sacrifice everything  
For the pleasure of the moment

Forgot a thing  
There are no possessions  
Useless values  
Before the ferrymen

Just the Burial Coins  
Are the payment in after-life  
Sacrificed life  
For a minute of authority

Forgot a thing  
There's no might  
Useless, all power  
Before the ferrymen

Burial coins  
For one last voyage  
Across the river  
At the land of the dead

Pay the price  
Or sacrifice  
One hundred years  
Wander in nowhere

Obolus, obolus  
To the son of Erebus  
To the ferrymen  
Of the river Styx

# **Cerebral Malfunction**

No silence  
Neverending screams in my head  
Takes control  
Pull on me the veil of silence

No rest  
Neverending fight for light  
I will lose  
Closed to eternal darkness

Thousand screamings through my head  
All of them want to see me dead  
All of them want to kill  
I need to stop them, before it's fulfilled

I have to fight, I need the light  
I can't be afraid, I need to kill

Kill all of them , one by one  
Or they will win, and I'm no more

They are too many, I cannot win  
I lose control and fall to darkness eternally

We are Legion  
We are one  
We are the voice  
We are the beast  
We are the fire  
We are the scream  
We are the silence  
We are your will
