The drinks will get us freaky,
At night the boys come easy,
Tonight we're getting sleazy,

Smoke Show

Verse:

That girl likes fast cars and hard drugs to feel alive,
She wants your cheap thrills for a good time,
Sun kissed, crop tops, and bleach blonde hair,
She likes the bad boys so she don't care,

Pre-Chorus:

How she gets her money for her love affair with the devil's delight,
Oh gawd, she's a smoke show with a bad attitude and hell in her eyes,

There's a party every night,
It's a party all of the time,
(Woo!)

(Solo 1)

He's got a fast car, gets drugs, no turn around time.
Reckless, he's a little conscience deprived.
Muscle pumped beau, deadbeat debonair,
He likes his girls in leather, they don't care,

Pre Chorus:

How he gets his money for his love affair with sinning all night,
Oh gawd he's a lady killer with a bad attitude and hell in his eyes,

Ghosts Will Talk

Verse:

Recount your memory, is there something that you missed?
When the answer to your question never seems to fit,
Woken by the dead to carry something you can't lift,

Pre Chorus:

Old binds,
Do they ever unwind?
Your prize,
Was me buried alive,

Chorus:

Ghosts will talk and we will listen,
We'll never be able,
To sleep once we have heard them,
This tethered endeavour,

Verse:

The plot is turning and it's going to make you sick,
Apples seemed so sweet but have a taste you didn't wish,
Every bite you take is rotten filled full of insects,

Pre Chorus:

Bold lies,
They never aligned,
Your prize,
was me buried alive,

Chorus:

Ghosts will talk and we will listen,
We'll never be able,
to sleep once we have heard them,
I'll never, you'll never,
Ghosts talk and we will listen,
We'll never be able,
To sleep when nothing's changing,
This tethered endeavour,

(Instrumental)

(Bridge)

Welcome unwelcome stay,
Sugar dreams decay,
The worms will find a way,
from moth's laid eggs,
Ghosts will talk and we have heard them,
Poisoned thoughts that feel like fiction,
Minds full of looming tension,
I'm tethered,

Chorus:

Ghosts will talk and we will listen,
We'll never be able,

to sleep once we have heard them,
I'll never, you'll never,
Ghosts talk and we will listen,
We'll never be able,
To sleep when nothing's changing,
This tethered endeavour,

Outro:
I'm tethered (x2)

Animal

Verse:

When you were here before,
I never meant to tease,
I wasn't interested,
you thought you held the key,

Success pushed me to you,
should share a common goal,
and look objectively,
You disregarded me,

Pre Chorus:

Only viewed as a she, (x2)
and never viewed as me,
Let me go,

Chorus:

I'm not yours, I'm not your animal,
No, never want to be more,
Oh, won't be yours, don't be an animal,
Oh, Let me go,

Verse:

When you expect from me,
my worth is trivialised,
Just give me good girl praise,
when I won't pacify,

I'm only good for this,
I'm never good for that,
the obligation stands,
and you're not satisfied,

Pre Chorus:

Courteous to survive, (x2)
because my body's mine,
Let me go.

I'm not yours, I'm not your animal,

Tongue's Bleeding

INTRO:

You don't wanna hear what's been wearing the threads,
I've been reducing expression instead,
Over time you're less wise,
Of what's getting dispensed,

I've got a smile that's wasted on the rest,
Expectation of truth unconfessed,
There are flies to be fed,
Even at your expense,

Colour Deficit

Verse 1:

The wake has got you weighed down,
Debt has collected (On your soul)
Host needs a reset (Call the sky)
Your faith was torn away,
How will we resist this (Resist this) fall into descent?

(Darkness follows you) as you crawl cross the barren land,
Buried under winter's snow,
(If you stay) This path could have a heavy end,
In despair friends

Pre Chorus:

Right now the forces have darkened,
Right now a forfeit is calling,
Numb out this feeling of falling,
Before a forced hand,

Chorus:

If we looked back from the edge,
Could we detect life without a spark?
If you step back from the edge,
I'd follow you in and out of the dark,

Verse 2:

The hopes becoming greyed out,
Colour deficit (Monochrome)
Host became vacant (Your soul's leaving you)

The wind would burn your bloodless skin,
But you lost will to feel (will to feel)
Got caught up in the widow's spin,
Got too thin,

Pre Chorus:

Right now the forces have darkened,
Right now a forfeit is calling,
Numb out this feeling of falling,
Before a forced hand,

If we looked back at the edge,

I'd follow you in and out of the dark,

Tree of Fire

Verse 1:

Sprinkle it with pitty sugar,
Dazzling synthetic colour,
But, under angel cover,
(there's fire)
Give em the pity trophy,
Make sure to keep em lowly,
Show a face of all that's holy,
You think you fooled me?

Chorus:

You see that we're deceived,
Devils disguised as your angel,
Our tree of life was set (on fire)
If you want to succeed,
This world is never going to dwell,
on who is left to flee (from fire)

Verse 2:

Blessed we are lesser than the controller,
Less are we blessed with than the conformer,
Words of the heavens phrased for some evil,
It's candied for you to eat them,

Chorus:

You see that we're deceived,
Devils disguised as your angel,
Our tree of life was set (on fire)
If you want to succeed,
This world is never going to dwell,
on who is left to flee (from fire)

(Tree of Fire) (x3)

Verse 3:

Sprinkle it with dirty reason,
Dazzle it with surface freedom,
Pacify with useless power,
(make silent)
Don't mind if the rich get filthy,
Giving guilt to all the needy
Mislead but, they smile so pretty,
You think you fooled me?

Outtro:

Maybe you're the fool, have you seen your pantomime?

It's a matter of time before they stop forced feeding,
What if they refuse to buy your pantomime?
Will the ego move when there is no choice but to

Ending:

(Breathe from your) Tree of fire

Unscrewed

Intro:

You'll take me, deconstruct me, become me.

Chorus:

Rip off my clothes, stitch yourself in and worsen,
You won't be me, you can't unscrew a person,

Verse:

Open up your heart to me, and plant my seeds of attitude,
I'll overtake you like a weed, my vines control, suffocate and intrude,
You can use my body parts, you've stored in jars, you've stored of me,
Genetically convert into, my second self, my carbon copy,

Chorus:

Rip off my clothes, stitch yourself in and worsen,
You won't be me, you can't unscrew a person,
Rip off my clothes, stitch yourself in and worsen,
You won't be me, you can't unscrew a person,

Verse:

Put my bones into your brain, reprogram you to feel my pain,
You can try to take my heart, and drain the blood out of my veins,
Cover up your infections, perfect yourself with my perfections,
Reattach hair strand by strand, glued to your scalp, fix your reflection,

Chorus:

Rip off my clothes, stitch yourself in and worsen,
You won't be me, you can't unscrew a person,
Rip off my clothes, stitch yourself in and worsen,
You won't be me, you can't unscrew a person,

Your Truth

Verse:

When your truth has unfurled,
Through the smoke in a swirl,
(will you lay in this bed of flames that you made)

Pre Chorus:

Ride for this hell you've been fearing for,
Try to snuff out what lets you feel whole,

Chorus:

In a love scene of the obscene,
If you're burning alive will you call out for rain?
(or will you burn)
In a love scene of the obscene,
If you're burning alive will you call out for rain?
(or will you burn)

Verse:

When returning to dirt,
Find your peace with the earth,
(seeds I laid will feed by the fire or rain)

Pre Chorus:

Ripe for this hell you've been fearing for
Fight to snuff out what lets you feel whole,

Spoken Word:

Deep in my chest,
Lives this unrest,
I tell myself that I won't be fine,
But if only I knew it just takes some time,
To vanquish the pain,
Won't leave me here in vain,
The thing I must do to let go of the old,
To forget all the things that I've never been told,
The carousel of lies deep in my brain,
That kept me surviving on my self-imposed pain,
Leaving me blind, numb and torn apart,
Unable to feel the beating of my own heart,
Rekindle the truth that I've never seen,
Rise like the phoenix that I've always been,

(Solo)

Bridge:

Flames engulf me and the burn turns cold,
In a love scene of the obscene,
Flames engulf me and the burn turns cold,
In a love scene of the obscene,

Chorus:

In a love scene of the obscene,
If you're burning alive will you call out for rain?

(or will you burn)
In a love scene of the obscene,
If you're burning alive will you call out for rain
(or will you burn)

Outtro:
If you're burning alive will you call out for rain
If you're burning alive will you call out for rain or will you burn?
