

DETHRONEMENT

In deep shadows, he treads the path
The mangled god's darkened wrath
Savior complex a twisted crown he bears
In this pursuit, he's lost all that is fair
Lenses of terror
He sees his fate
A twisted soul that is scorned and wrecked
Falling into obscureness

Changing directions
Blasphemy towards exile
With a moment
No mercy shown I will stand
Spread more chaos
Tormenting all future lives
That I will take
Once the time becomes right

In arrogance
He thought he could ascend
But in his pride
He caused this momentum shift
Now he is trapped with my fearless might echoing
The mangled god of fallacy
Condemned to give up all fantasies devolving
Madness descends
As I approach
He pays the toll

At last, he won't ascend

Changing directions
Blasphemy towards exile
For a moment
No mercy shown I will stand
Spread more chaos
Reclaiming all future lives
That I will take
The time is now finally right

The pressure's becoming unfathomable
Atmospheric weight compresses the soul
Reaching boiling point
Barometer's in descent

In the abyss, he finds his lament
The reverse effects of his prideful intent

Altering reign of the earth
His previous victims
A product of the past
Raged at the ignorance
Stunned by my splendid stance
Reap all the proclaimed rights
Let it become debris

ARCANE INCEPTION

Congregation
Ignite the rebirth
Some things will have to change for all
Even in affinity
Former sovereign
He shall not return
Spare all felicitations
Calmness before we begin

Nigh suffering

Nearer upon the event
That will be held in four dimensions
Engraving to mark the moment
But shall be forgotten

Deprived of resources
They gather all remains to exude some defence
Furious by their lack of power
Furious by the approaching hour

Claimed
Demise
All leeches are set

The lack of understanding
It gives even more reasons to move on
Desolate land
Forging the path of least resistance
All excited
To snatch the bodies

Purest insolvency

Of unknown cradle of origin
These starving slews serve a purpose
Magnificent use of innovation
Usage uncloaks in due time

Initiate the synopsis
Eldritch influence leading to fascination
Falling apart to genuflect evolution
Lure the unfrightened
Malleable respondents
Seeking a thrill and helping to
Advance the plan

VEIL UNFURLING

Capsules are sealed, the prisoners anesthetized
No signs of side effects within the paralyzed
The soothing sound of cracking-proof tubes
Flowing serum steadily
Making its way into the veins
Degrees

Drop severely
To an approved median
Vitals weary
Under the meridian
Functional magnetic
Resonance imaging
Conscience signals
Blurring the reception

Thaw reigns ignition
Mending the fire evaporates the soul
Hollow, burning
Draw immolation
Piling the ashes may release them to form
Blackened wide clouds
Veil unfurling

In spite of a god
Failing to counter the science
In spite of a god
Fading beneath the compliance
Genes
Binding the units for reliance

Subtract the minds from the facts

Transmission
Telepathic implant
Gamma pulses found in solace
Conductive stream
Powering on their function as servants
There are signs everywhere

Thaw reigns ignition
Mending the fire evaporates the soul
Hollow, burning
Draw immolation
Piling the ashes will release them to form
Blackened wide clouds
Veil unfurling

LESIONS

Legions
Of telepathic flesh
Going great lengths to engage a purpose,
A force to revolutionize
The way we rebuild the earth

So many efforts
So many rifles
Solely aiming for the halt of their paranoia
Relentless pursuit, blinded by a broken sense
Avowed to undermine the change

They begin to see a glaring form of threateningness
And recognize it as an ever-growing danger
Even out of time, they're planning an escape

But then they realize the sighting becomes bigger

Efforts decrease
In search of their breath
Oxymoron to represent the fallen hopes
Lesions of wellness

Bleeding
Out of their eyes from
Spotting
Chariot of massacrery
Built to restore the earth

They begin to see a glaring form of threateningness
And recognize it as an ever-growing danger
Even out of time, they're planning an escape
But then they realize the sighting becomes bigger
With
Forthcoming lesions
