

DEATH Lyrics

Lay low cause I'm coming in heavy. Kick back let me do the lifting. Throwing hooks wrecking looks is my new thing. Gonna make your head ring time to take a beating.

Outside mother fucker's where you'll find me in the back of the shack living grimy got the boys all riled up nicely shallow Graves packed tight buried in the Headlights. You're all part of the misery I kept in the septic memory soaked up in the shit that you made me muddy boots blood red me home you dead

CHORUS

Severing misery cut it out make it bleed hold your breath never stop. Death

I don't even know where your mind's at it's like you're leaning hard as fuck into a ball bat. Back off it's about to get Rowdy look at you fuckin mean mugging me. Time to see what the f*** you think you'll do to me this will end quickly I'mma get shitty

Separate your face from your teeth and we're safe. Formulate a fixed space for your alibi

CHORUS

Severing misery cut it out make it bleed. Hold your breath, never stop. Death

Outside mother fucker's where you'll find me in the back of the shack living grimy got the boys all riled up nicely shallow Graves packed tight buried in the Headlights. You're all part of the misery I kept in the septic memory soaked up in the shit that you made me muddy boots blood red me home you dead
