

### Bleed For It -THUNDEROR

Lyrics by: JJ Tartaglia

You gotta bleed for it, work hard for it  
Give all you got and more for it  
'Cause it's our time, Coming back around  
Tonight

When we were young, we took it up  
From the back streets heard the call  
In fate we'd trust, it would turn out  
We would make it we'd give our all

We headed out, out on the road  
We were hungry, we were gold  
If things got tough, you'd have a friend  
We would make it until the end

In times we were told  
To turn back away  
We'd never get old  
We'd get there someday

You gotta bleed for it, work hard for it  
Give all you got and more for it  
'Cause it's our time, We're never backing down  
Tonight

Oh when we was young, we did our best  
Never backed down never rest  
We would stay true, and let it show  
We can make it just don't let go

In times we were told  
We'd find back a way

You gotta bleed for it, work hard for it  
Give all you got and more for it  
'Cause it's our time, We're never backing down  
Tonight

We gave it Blood (x4)  
We gave it blood, blood, blood (x4)

You gotta bleed for it, work hard for it  
Give all you got and more for it  
'Cause it's our time, We're never backing down

Coming back around

We're never backing down  
We're coming back around  
We're never backing, never backing down

We bleed

Pump Up The Volume -THUNDEROR

Lyrics by: JJ Tartaglia

Pump up the volume it's the feeling you get now  
Pump up the volume it's the moment you live for it  
Pump up the volume got me feeling so right now  
Pump up the volume it's the moment you live for it  
Come on and breathe for it  
Come on and die

Turn it up  
You got me feeling so high  
Put it up  
And we can go down, go down, go down, go down  
Whip it up  
You got me feeling so high  
These are the wicked ways of these days

Pump up the volume it's the feeling you get now  
Pump up the volume it's the moment you live for it  
Pump up the volume got me feeling so right now  
Pump up the volume it's the moment you live for it  
Come on and breathe for it  
Come on and die

Turn it up  
You got me feeling so high  
Whip it up  
You've got the feeling right  
Put it up  
You got me feeling so high  
These are the wicked ways of these days

Shout! If you can hear me  
Shout! If you can feel me

Shout! So can you hear me  
Shout! Shout! Shout!

Shout! We've got to hear you  
Shout! You've got to come through  
Shout! So let me hear you  
Shout! Shout! Shout!  
Jump! If you can do it  
Jump! If you can feel it  
Jump! If you can pump it  
Jump! Jump! Jump!

Jump! You've got to do it  
Jump! You've got to feel it  
Jump! You've to pump it  
We'll lay it on the line

Pump up the volume it's the feeling you get now  
Pump up the volume it's the moment you live for it  
Pump up the volume got me feeling so right now  
Pump up the volume it's the moment you live for it  
Come on and breathe for it  
Come on and die

Take Me To The Show -THUNDEROR  
Lyrics by: JJ Tartaglia

Take me, take me, take me to the show  
Rock me, roll me, 'till the morning glow  
So take me, take me, it's my time to go  
I wanna go to the rock n' metal show

I keep thinking something isn't right  
Or was it something you said to me  
I keep feeling I'm still missing out  
You won't hear me out

We'll come alive, like my dreams in the dark  
We come running, yeah we come running up  
We'll go kicking all the way to back home  
Oh yeah!

I keep on thinking this was meant to be  
You keep my hopes alive  
This time I'm making all the moves for me  
You can come along

And here we go  
Round and round, round and round  
Don't say no more, I wanna be free!  
You talk about  
On and on, on and tonight  
Let's go!

Scream and shout, see you running  
Let it all out, hear you singing  
Watch it go, now we're rockin  
Welcome to the show

Yeah we roll roll roll all through the night  
Keep the party going 'cause we feel alright  
It sure gets loud but we keep it tight  
We are here to stay  
Yeah we sold our souls in the dead of night  
Kept the fire burning 'cause we felt all right  
We never know when it won't be so  
You gotta take me to the show

I'll be your lightning lover, I'll do it so good  
Your entertainer, so come now you should  
I'll be your sweet sensator, the reason to go  
I'll take you to the show

I'll be your midnight mover, we're having a bash  
Your lightning lover, be there in a flash  
I'll be your sweet sensator, so come on let's go  
I'll take you to the show

Scream and shout, see you running  
Let it all out, hear you singing  
Watch it go, now we're rockin  
Welcome to the show  
(repeat)

## Get 'Em Counted -THUNDEROR

Lyrics by: JJ Tartaglia

Go!  
You've got to get 'em counted  
Say 1, 2, 3  
No, don't ever let 'em go  
Hurry up and go  
You've got to get 'em counted  
Say 1, 2, 3  
No, don't ever let 'em go  
Hurry up and go

I believe  
In the strength, and will to survive  
Now I know, now you know  
It's a time, too good you can't deny

So go!  
You've got to get 'em counted  
Say 1, 2, 3  
No, don't ever let 'em go  
Hurry up and go

We believe  
In the art, and way of the road  
It's the path, that we chose  
We're the blood, the sweat and the tears

We go on, in the night  
We show up, that's what keeps us fighting  
We hold on, for the fight  
It's the life, that we'll keep on living

Hear the sounds, they will fade, with the lights, in a daze  
But I, I grow strong, it's the blood, that burns in my veins

So go!  
You've got to get 'em counted  
Say 1, 2, 3  
No, don't ever let 'em go  
Hurry up and go  
You've got to get 'em counted  
Say 1, 2, 3

Oh! Oh! Oh!

### Cape Breton Home -THUNDEROR

Lyrics by: JJ Tartaglia

My Cape Breton home, I know, seems so far  
Times gone past, alas, memories forever last  
The place I once knew, so far, seems to fade  
But in my heart, I'll be home again someday

We are the boys and we're having a time tonight  
We are the boys and we're going strong  
We are the boys and we're having a drink tonight  
Come here dear won't keep you too long

We could be relieved  
Sent back home and in high regard  
It would be believed  
We were heroes of the sea

We'd set sail, as soon as morning light  
We'd be gone, all on our own  
We'd gear up, and show up to the fight

Yes we'll make stories to remember  
That they'll tell for good  
Yeah it won't hurt, what we don't know  
That's the life for me

My Cape Breton home, I know, seems so far  
Times gone past, alas, memories forever last  
The place I once knew, so far, seems to fade  
But in my heart, I'll be back again someday

Oh yeaaaah  
Oh send me a sign  
Far in the afterglow

We'd set sail, as soon as morning light  
We'd be gone, all on our own  
We'd gear up, and show up to the fight  
Yes we'll make stories to remember  
That they'll tell for good  
Yeah it won't hurt, what we don't know  
That's the life for me

## Streets Of Fire -THUNDEROR

Lyrics by: JJ Tartaglia

You say, you'd never let go  
I say, you never told me so  
You say, you'd come back to me  
I say, you never come around  
Back then, we never broke it  
And so, we never saw it through  
Who says, we never break down  
But still, we shouldn't run away

In hard times we could never look back  
If we knew right now what we didn't know then  
In those times that we didn't look back  
And we see right through what we couldn't see then  
We hold on  
We won't let go  
In those days that we look back now  
And we tell ourselves it'll all be ok

Stand all together, this is for the long forgotten  
Take up your arms now, we will be on these streets  
Brothers and sisters, we are the not forgotten  
Raise up your fists now, we will be on these streets  
Yeah on these streets  
Of Fire

These times of trouble, they're good for something  
You seem to know that, we feed the fire  
If we could make back, the time we lost out  
Would things be different, would we believe that

We had each other, those days are long gone  
It's time to march on, we've got to live out the  
Night is young, it's more than we are  
I'll keep an eye out, we've got to make it till light

Don't turn away, We'll make it through  
It's fate that brought us here  
And in the morning, They'll start the bombing  
Oh tell me can you hear, hear hear

Stand all together, this is for the long forgotten  
Take up your arms now, we will be on these streets  
Brothers and sisters, we are the not forgotten  
Raise up your fists now, we will be on these streets  
Yeah on these streets  
Of Fire

Fire, oh Fire, oh take me away tonight

DreamQuest -THUNDEROR

(instrumental)

One Chance -THUNDEROR

Lyrics by: JJ Tartaglia

Don't kill the power, Don't kill the power till I say  
We've got to hold on, We've got to hold till we're through  
Don't stop the motion, Don't stop the motion till it's time  
You've got to dream on, You've got to dream on till the end

So I, Play with fire  
Don't you stop me, Don't you stop me now  
You're my only, One desire  
Don't you tempt me, Don't you tempt me now, No

So give me one chance, come on baby take it  
One chance, no you won't regret it  
Once chance, they can never take it 'way from me  
So take the one chance, come on babe we'll make it  
One chance, oh you best believe it  
Once chance, they will never take you 'way from me

We'll stay strong, On our own  
We belong  
Oh to the night, Alright

We've got the power, We've got the power running hot  
It's now or never, It's now or never take the shot!

So I, Play with fire  
Don't you stop me, Don't you stop me now  
You're my only, One desire  
I've got to have you, I've got to have you now, Oh!

So give me one chance, come on baby take it  
One chance, no you won't regret it  
Once chance, they can never take it 'way from me  
So take the one chance, come on babe we'll make it  
One chance, oh you best believe it  
Once chance, they will never take you 'way from me

In The Fire O' The Heat -THUNDEROR

Lyrics by: JJ Tartaglia

In the fire o' the heat, In the fire o' the heat I'm yearning  
In the fire o' the heat, In the fire o' the heat I'm burning now

In these times I know, I'll never let you go  
In these times we know, I'll never let you go  
I'm alone

You said you'd never Back down for nobody  
And we would always Fight back for each other  
For in the eyes of the Night we're true believers  
'Cause in the dark we are Light they won't deceive us  
Took the time, all the while, waking up to you

Yeah it was something we Felt real for each other  
We saw the love of the Fight in one another  
The kind of story you Hear and won't believe it  
Yeah it's your life on the Reel you can't rewind it  
In the rain, all the night, waited up for you

We said we'd never Back down for nobody  
We wouldn't give up the Fight no not so easy  
Those days are gone and there Came the colder weather  
We say goodbye as we Drift apart forever  
What you said, what I heard, tore us up for good

The time it took me to Find you no, forget it  
The light went dark and we're Lost alone without it  
We found a place in this Hell made for each other  
In the Fire O' The Heat we'll burn together  
At the end, of the line, always thought that  
We would have more time

In these times I know, I'll never let you go  
In these times we know, I'll never let you go  
I'm alone
